

	M	Horned Grebe
	M	Northern Gannet
	M	Double-crested Cormorant
	M	Great Cormorant
	M	American White Pelican
	B	Brown Pelican
	B	American Bittern
	U	Least Bittern
	M	Great Blue Heron
	B	Great Egret
	U	Snowy Egret
	B	Little Blue Heron
	M	Tricolored Heron
	U	Cattle Egret
	M	Green Heron
	U	Black-crowned Night-Heron
	U	Yellow-crowned Night-Heron
	M	Glossy Ibis
	M	Black Vulture
	M	Turkey Vulture
	M	Osprey
	B	Bald Eagle
	M	Northern Harrier
	M	Sharp-shinned Hawk
	M	Cooper's Hawk
	B	Red-shouldered Hawk
	B	Broad-winged Hawk
	M	Red-tailed Hawk
	M	Rough-legged Hawk
	M	American Kestrel
	M	Merlin
	B	Peregrine Falcon
	B	Clapper Rail
	U	King Rail
	U	Virginia Rail

Check-list	Common Name	De-lected
	Waterfowl	
	Greater White-fronted Goose	U
	Snow Goose	M
	Canada Goose	M
	Mute Swan	B
	Tundra Swan	M
	Wood Duck	M
	Gadwall	M
	Eurasian Wigeon	U
	American Wigeon	M
	American Black Duck	M
	Mallard	B
	Blue-winged Teal	U
	Northern Shoveler	U
	Northern Pintail	M
	Green-winged Teal	U
	Canvasback	U
	Redhead	U
	Ring-necked Duck	U
	Greater Scaup	M
	Lesser Scaup	M
	Surf Scoter	M
	Black Scoter	M
	Long-tailed Duck	U
	Bufflehead	M
	Common Goldeneye	M
	Hooded Merganser	M
	Common Merganser	U
	Red-breasted Merganser	M
	Ruddy Duck	M
	Gamebirds	
	Northern Bobwhite	B
	Ring-necked Pheasant	U
	Ruffed Grouse	B
	Wild Turkey	B
	Grebes and Loons	
	Red-throated Loon	M
	Common Loon	M
	Pied-billed Grebe	R

Detected = Season in which birds were seen
R = Residential: found all year
B = Breeding Season : 1 June – 15 August
M = Migratory Seasons:
15 March – 31 May
15 August – 15 November
V = Vagrant, a bird far outside of its normal range
U = Unlisted

This checklist was developed from the 2011 NPS Certified Species Bird List. The order and nomenclature follow The American Ornithologists' Union *2011 check-list of North American Birds*.

Checklist Key:

Whether you are a veteran bird watcher or just an observer during a walk through the park, you can see many birds in action building nests and searching for food. Look for birds flying overhead or within the forests and fields. Don't just use your eyes, listen out for the unique calls and songs.

Bird Watching

Habitats

Colonial National Historical Park provides 8677 acres of protected habitat for over 250 bird species. Habitats include upland forests, tidal and non-tidal wetlands, as well as disturbed and cultural areas. This diversity of habitat attracts a diversity of bird species.

Seasons

Different seasons bring different birds to the park. Some birds are residents that remain throughout the year. Others are seasonal, migrating from the north to warmer climates during the winter. In the spring southern species migrate north to take advantage of the food resources as plants and insects emerge from winter dormancy. These birds may nest and raise their young in the park. Others are just passing through.

For additional information or to report species not found on the checklist, please contact our Natural Resource staff at: COLO_Resource_Managment@nps.gov

Management

Many bird species are returning and increasing in numbers along the Virginia coast since the conservation efforts to protect their habitats were established, including the ban of DDT use. Shorebirds and seabird rafts are often sighted at the mouths of creeks along the Colonial Parkway. Bald eagles, once endangered, now thrive and nest within in the park’s boundaries.

Park mowing schedules have been adjusted to allow grassland habitat species to nest. As park managers continue to adapt programs to benefit the coexistence of people and birds, we can expect to see a diversity of birds flying over Colonial for visitors and future visitors to see.
